ANNEX I - GENERAL CONDITIONS

TITLE I - PROJECT/PROGRAMME FINANCING

ARTICLE 1 – GENERAL PRINCIPLE

- 1.1 The EU's financial contribution shall be limited to the amount specified in the Financing Agreement.
- 1.2 The provision of the EU financing shall be subject to fulfilment of the Beneficiary's obligations under this Financing Agreement.
- 1.3. The expenditure incurred by the Beneficiary before the entry into force of the Financing Agreement is not eligible for the EU financing.

ARTICLE 2 - COST OVERRUNS AND COVERING THEM

- 2.1 Individual overruns of the budget headings of the Financing Agreement shall be dealt with by reallocating funds within the overall budget, in accordance with Article 22 of these General Conditions.
- 2.2 Wherever there is a risk of overrunning the global amount set in the financing Agreement, the Beneficiary shall immediately inform the Commission and seek its prior approval for the corrective measures planned to cover the overrun, proposing either to scale down the project/programme or to draw on its own or other non-EU resources.
- 2.3 If the project/programme cannot be scaled down, or if the overrun cannot be covered either by the Beneficiary's own resources or other resources, the Commission may, at the Beneficiary's duly substantiated request, decide to grant additional EU financing. Should the Commission take such a decision, the excess costs shall be financed, without prejudice to the relevant EU rules and procedures, by the release of an additional financial contribution to be set by the Commission.

TITLE II - IMPLEMENTATION

ARTICLE 3 – GENERAL PRINCIPLE

The project/programme shall be implemented under the responsibility of the Beneficiary with the approval of the Commission.

ARTICLE 4 - PERIOD OF EXECUTION

- 4.1 The period of execution of the Financing Agreement shall comprise two phases:
- an operational implementation phase, in which the principal activities are carried out. This phase shall commence on the entry into force of the Financing Agreement and end with the opening of the closure phase;
 - a closure phase, during which final audits and evaluation are carried out and contracts and programme estimates for the implementation of the Financing Agreement are technically and financially closed. This phase shall end at the latest 24 months after the end of the operational implementation phase.
- 4.2 Costs related to the principal activities shall be eligible for EU financing only if they have been incurred during the operational implementation phase. Costs related to final audits and evaluation and closure activities shall be eligible up to the end of the closure phase.
- 4.3 Any balance remaining from the EU contribution will be automatically cancelled six months after the end of the period of execution.
- 4.4 In exceptional and duly substantiated cases, a request may be made for the extension of the operational implementation phase and correlatively of the period of execution. If the extension is requested by the Beneficiary, the request must be made at least three months before the end of the operational implementation phase and approved by the Commission before that latter date.
- 4.5 In exceptional and duly substantiated cases, and after the end of the operational implementation phase, a request may be made for the extension of the closure phase and correlatively of the period of execution. If the extension is requested by the Beneficiary, the request must be made at least three months before the end of the closure phase and approved by the Commission before that latter date.

The Beneficiary shall notify the Commission of the date of registration of this request. The payment request is not admissible if at least one essential requirement is not met. The time limit for payments may be suspended by the Commission by informing the Beneficiary, at any time during the period referred to above, that the payment request can not be met, either because the amount is not due or because the appropriate supporting documents have not been produced. If information comes to the notice of the Commission which puts in doubt the eligibility of expenditure appearing in a payment request, the Commission may suspend the time limit for payment for the purpose of further verification, including an on-spot check, in order to ascertain, prior to payment, that the expenditure is indeed eligible. The Commission shall inform the Beneficiary as soon as possible.
- 5.2 The deadline referred to in paragraph 1 shall also apply when payment is conditional on approval of a report. In this case, the request for payment can be considered admissible but the time limit for payment shall begin only when the Beneficiary has approved the report, either expressly, by notifying the contractor, or tacitly, by allowing the contractual deadline for approval to expire without sending the contractor a document formally suspending that deadline. The Beneficiary shall notify the Commission of the date of approval of the report.
- 5.3 In the event of any delay in forwarding payment requests attributable to the Beneficiary, the Commission shall not be obliged to pay the contractor the late-payment interest provided for in contracts, which will be payable by the Beneficiary.

TITLE IV – PAYMENTS TO BE MADE BY THE BENEFICIARY TO THIRD PARTIES THROUGH PROGRAMME ESTIMATES AND DISBURSEMENT TO BE MADE BY THE COMMISSION**ARTICLE 6 – GENERAL PRINCIPLE**

ARTICLE 7 - DISBURSEMENT

- 7.1 The Commission shall transfer funds no later than 45 calendar days after the date on which it registers an admissible payment request from the Beneficiary. The payment request is not admissible if at least one essential requirement is not met. The time limit for payments may be suspended by the Commission by informing the Beneficiary, at any time during the period referred to above, that the payment request can not be met, either because the amount is not due or because the appropriate supporting documents have not been produced. If information comes to the notice of the Commission which puts in doubt the eligibility of expenditure appearing in a payment request, the Commission may suspend the time limit for payment for the purpose of further verification, including an on-spot check, in order to ascertain, prior to payment, that the expenditure is indeed eligible. The Commission shall inform the Beneficiary as soon as possible.
- 7.2 The Commission shall make payments to a bank account denominated in euro and opened at a financial institution accepted by the Commission.
- 7.3 The Beneficiary shall guarantee that funds paid by the Commission by way of pre-financing can be identified in this bank account.
- 7.4 Transfers in euro shall, if necessary, be converted into the Beneficiary's national currency as and when payments have to be made by the Beneficiary, at the bank rate in force on the day of payment by the Beneficiary.
- 7.5 The funds paid by the Commission to this bank account shall yield interest or equivalent benefits. The Beneficiary shall notify the Commission of interest or equivalent benefits yielded by those funds at least once a year.
- 7.6 Interest or equivalent benefits yielded by the funds paid of more than two hundred fifty thousand euro shall be repaid to the Commission within 45 days of receipt of the Commission's request.
- 7.7 For a programme estimate which has not given rise to any transfer of funds within three years of its signature, the corresponding committed amount shall be cancelled.

TITLE V - AWARD OF CONTRACTS AND GRANTS

ARTICLE 8 – GENERAL PRINCIPLES.

- 8.1 All contracts implementing the Financing Agreement must be awarded and implemented in accordance with the procedures and standard documents laid down and published by the Commission for the implementation of external operations, in force at the time of the launch of the procedure in question.
- 8.2 In cases of decentralised contracts, the Beneficiary will inform the Commission when a contractor has been guilty of making false declarations, has made substantial errors or committed irregularities and fraud, or has been found in serious breach of its contractual obligations.

In such cases, without prejudice to the power of the Commission to impose administrative and financial penalties according to the Financial Regulation applicable to the general budget of the European Union and the corresponding provisions applicable to the European Development Fund (EDF), financial penalties to contractors mentioned in the provision on "Administrative and Financial Penalties" of the General Conditions of decentralised contracts shall be imposed by the Beneficiary in accordance with its own rules and procedures, following an adversarial procedure and ensuring the right of defence of the contractor.

ARTICLE 9 - DEADLINE FOR THE SIGNATURE OF THE CONTRACTS IMPLEMENTING THE FINANCING AGREEMENT

- 9.1 The contracts implementing the Financing Agreement shall be signed by both parties within three years of the entry into force of the Financing Agreement. That deadline may not be extended.

- 20.2 The Beneficiary also agrees that OLAF may carry out on-the-spot checks and verifications in accordance with the procedures laid down by EU law for the protection of the EU's financial interests against fraud and other irregularities.
- 20.3 To that end, the Beneficiary undertakes to grant officials of the Commission, OLAF and the European Court of Auditors and their authorised agents access to sites and premises at which operations financed under the Financing Agreement are carried out, including their computer systems, and to any documents and computerised data concerning the technical and financial management of those operations, and to take every appropriate measure to facilitate their work. insurmountable in spite of all due diligence. Defects in equipment or material or delays in making them available, labour disputes, strikes or financial difficulties cannot be invoked as force majeure. A party shall not be held in breach of its obligations if it is prevented from fulfilling them by a case of force majeure of which the other party is duly informed. A party faced with force majeure shall inform the other party without delay, stating the nature, probable duration and foreseeable effects of the problem, and take any measure to minimise possible damage.

- 23.2 No prior notice shall be given of the suspension decision.
- 23.3 As a precautionary measure, payments referred to in Article 7 (1) of these General Conditions shall be suspended.
- 23.4 When the suspension is notified, the consequences on the ongoing contracts and programme estimates or contracts and programme estimates to be signed will be indicated.
- 23.5 A suspension of the Financing Agreement is without prejudice to the suspension of payments by the Commission for the sake of ensuring sound financial management or protecting the EU's financial interests.

ARTICLE 24 – TERMINATION OF THE FINANCING AGREEMENT

- 24.1. If the issues which led to the suspension of the Financing Agreement have not been resolved within a maximum period of four months, either party may terminate the Financing Agreement at two months' notice.
- 24.2. Where a Financing Agreement has not given rise to any payment within three years of its signature or no implementing contract has been signed within this period, that Financing Agreement will be terminated.
- 24.3 When the termination is notified, the consequences on the ongoing contracts and programme estimates or contracts and programme estimates to be signed will be indicated.

ARTICLE 25 - DISPUTE-SETTLEMENT ARRANGEMENTS

- 25.1 Any dispute concerning the Financing Agreement which cannot be settled within a six-month period by the consultations between the parties provided for in Article 21 of these General Conditions may be settled by arbitration at one of the parties' request.

Financing Agreement – Annex I – General Conditions – BUDGET

Failing that, either party may ask the Secretary-General of the Permanent Court of Arbitration (The Hague) to designate a second arbitrator. The two arbitrators shall in their turn designate a third arbitrator within 30 days. Failing that, either party may ask the Secretary-General of the Permanent Court of Arbitration to designate the third arbitrator.
- 25.3 Unless the arbitrators decide otherwise, the procedure laid down in the Permanent Court of Arbitration Optional Rules for Arbitration Involving International Organisations and States shall apply. The arbitrators' decisions shall be taken by a majority within a period of three months.
- 25.4 Each party shall be bound to take the measures necessary for the application of the arbitrators' decision.

1. INTERVENTION

1.1. Objectives

The **overall objective** is to contribute to the improvement of the health status of the population especially the poor and most vulnerable through a more effective, efficient and equitable health system. The **specific objective** is to support the implementation of the five year health plan (2011-2015) of the Government of Vietnam, which addresses the 6 building blocks of a health system (WHO). Five of them are considered as inputs: 1. Governance; 2. Health financing; 3. Biological products, pharmaceuticals, vaccines, medical equipment and technologies; 4. Health workforce; 5. Health information system, and 6: Service Delivery is included as the central process.

The activities of the 5-year health plan 2011-2015 will have positive **environmental** impacts. It is expected that it will address, among others, the issue of hospital waste management and establish norms for climate change proofing.

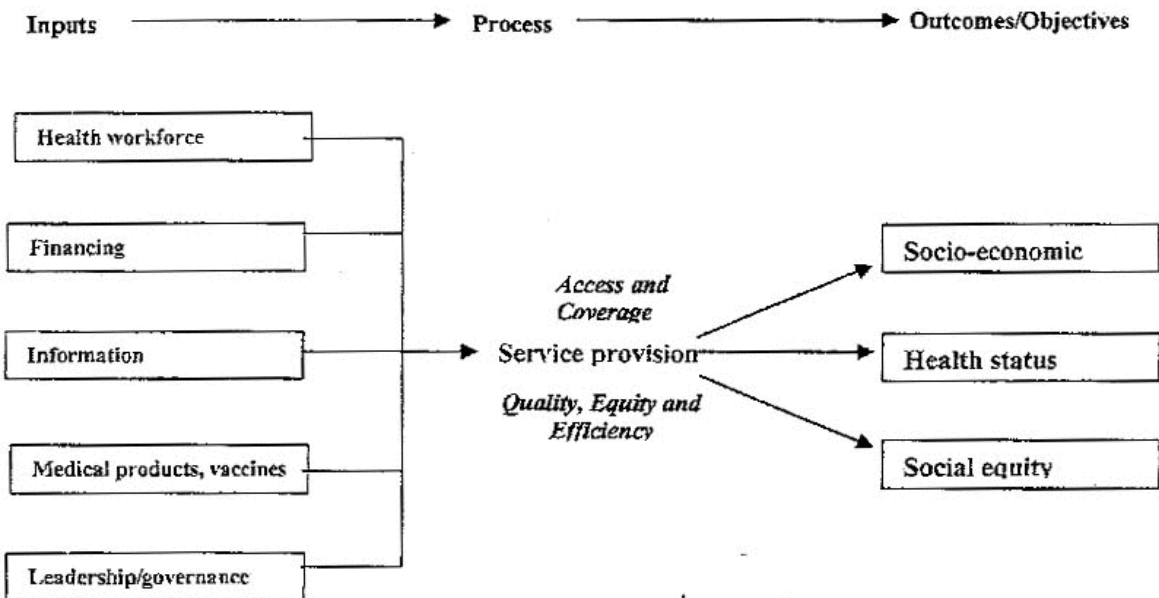

With regard to **gender equality** the health plan is expected to strongly emphasise the right of women to quality reproductive health services as a strengthening of current gender equality policy.

The health plan is also expected to strengthen **good governance** by enhancing the capacity of the Ministry of Health (MoH) to exercise its stewardship role and by strengthening procedures relevant to transparency of management in the health sector.

1.2. Expected results and Main activities

The 3-year Health Sector Policy Support Programme (HSPSP) contributes to the achievement of results of the 5-year plan (2011-2015). The European Commission envisages continued support, through the same modality, to the implementation of the 5-year plan under the MIP 2011-2013.

The expected results will be linked to the building blocks of Vietnam's health care system:

The conceptual framework of a health system, developed by WHO¹, has been adapted by MoH into 5 building blocks: (1) health workforce; (2) financing; (3) information; (4) medical products, vaccines and medicines; (5) leadership and governance, which contribute to the provision of good quality services for all people. Process indicators, identified by this framework, are accessibility,

coverage, quality, equity and efficiency. Upper level outcomes are improved people's health status, social equity and national socio-economic development².

The expected results of the HSPSP are yearly progress against the 19 indicators (See appendix 3) of the 5 years health plan covering both inputs (number of doctors, pharmacists, midwives, hospital beds, etc...) and outputs/outcomes (percentage of vaccinations, insurance coverage, mortality rates, child malnutrition, AIDS prevalence, etc...). The plan also foresees that additional indicators should be monitored and supervised to capture an overview and insights of the health sector, including indicators of health service provision; health status, health human resources, health information system, drugs and medical equipment and health financing against which progresses are also expected.

The main activities that will be undertaken under the HSPSP, besides provision of budget support funds, are linked to the sector policy dialogue activities (Health Partnership Group - HPG, Joint Annual Health Review - JAHR, others), donors coordination and the assessment of the disbursement requests.

The EU Delegation to Vietnam will in particular undertake the following activities:

- take part actively in the joint sector performance assessment (the JAHR) and retain the responsibility for mobilising adequate technical assistance from the Health Sector Capacity Support Project in support of the assessment, upon the request of the Government;
- contribute to and coordinate the dialogue among European Union Member States and other donors and Government around the health sector policy and implementation of 5 years health plan; and
- undertake visibility and communication activities.

1.3. Duration

The execution period of the Agreement will be 72 months. This execution period will comprise 2 phases under the conditions provided for in article 4.1 of the General Conditions (Annex I of the present Agreement):

1. Operational implementation phase that starts from the entry into force of the financing agreement and will have a duration of 48 months.
2. Closure phase of a duration of 24 months that starts from the expiry date of the operational implementation phase.

Pursuant to article 6 of the General Conditions (Annex I of the present Agreement), the contracts implementing the financing agreement shall be signed at the latest within three years of the entry into force of the financing agreement (except audit and evaluation). That deadline may not be extended.

2. IMPLEMENTATION

2.1 Implementation method and Procurement and Payment clauses

The present Programme will be implemented through a sector budget support modality. Therefore the method of implementation is direct centralised management with the signature of a Financing Agreement. The budget support is untargeted. The Ministry of Finance will confirm that the relevant account has been credited and provide documentary evidence of the transfer, including the exchange rate used.

All contracts implementing the visibility activities (100 000 EURO) must be awarded and implemented in accordance with the procedures and standard documents laid down and published by the Commission for the implementation of external operations, in force at the time of the launch of the procedure in question.

² MoH, 5-year national health plan 2011-2015, page 5-6.

Participation in the award of contracts for the Programme shall be open to all natural and legal persons covered by the DCI regulation.

2.2. Budget and calendar

2.2.1 Budget

The EU direct budget support consists of a commitment of 39 150 000 EURO. This amount will be disbursed in three (3) annual tranches as budget support and 100 000 EURO will be retained by EU Delegation for communication and visibility activities. The resources provided should make it possible for the beneficiary Government to achieve the targets specified in the criteria for disbursement (See 2.3.2).

The indicative budget breakdown of the overall amount by main components is presented in the table below:

Table 1 - Budget

	Amount (in euro)	EU contribution (in euro)	Other donors (in euro)	Sector/ministry budget/funding over programme duration (in euro)
Budget Support	39 150 000	39 150 000 ³		7 609 470 945 ⁴
Technical Cooperation*	0	0		
Visibility	100 000	100 000		

* Technical Cooperation complementary to the Budget Support is provided separately as part of the Health Sector Capacity Support Project (DCI-ASIE/2008/19694).

2.2.2 Calendar

The operational implementation phase of the HSPSP is 48 months from the date of signature of the Financing Agreement.

The disbursement of the sector budget support is foreseen over three fiscal years, spanning over 2012, 2013 and 2014.

In 2012, the annual tranche will be composed of one base instalment. In 2013 and 2014, the annual tranches will be made of a base and a bonus instalment. Criteria for disbursement of the instalments are described at point 2.3.2.

In order to assure the predictability of the EU disbursements, the assessment will take place, for the 2013 and 2014 fiscal years, before the end of September of the previous year.

The schedule for disbursement of the budget support instalments is foreseen as follows:

Table 2 - Calendar

Budget Support Instalments	1 st half of 2012	1 st quarter 2013	1 st quarter 2014
Base instalment	€ 10 000 000	€ 10 000 000	€ 10 000 000

2.3 Performance monitoring and criteria for disbursement

2.3.1. Description of performance monitoring arrangements:

The Ministry of Health is responsible for the continued reforms towards sector-wide management, as agreed between the Ministry and key Development Partners in the Statement of Intent of the Health Sector. This reform process is currently supported by EU's Health Sector Capacity Support Project in close collaboration with other Development Partners, members of the Health Partnership Group (HPG).

The Ministry of Health is responsible for evaluating the 5-year plan implementation and annual health indicators using it as a foundation for subsequent planning exercises. Every year the Ministry of Health will work with the HPG to conduct a Joint Annual Health Review (JAHR), laying out the foundation for health policy making and planning, and mobilizing international aid for the sector. The JAHR report will be used to assess the annual health sector performance.

Data for health indicators will be collected by the Ministry through annual health statistics and other reliable sources and will be provided timely to the HPG for the regular monitoring of the 5 years health plan and the production of the JAHR report.

The JAHR process is a joint mechanism for the measurement of and dialogue on (i) sector performance; and (ii) implementation progress of the 5-year plan; as well as the priority setting mechanism for the annual operational plans. The MoH will make sure that the draft JAHR report will be available before the end of July every year so that its recommendations could fit into the sector's planning cycle, and some of its data can be used for the assessment of disbursement criteria for the budget support.

2.3.2. Criteria for disbursement

General criteria for the disbursement of all instalments of budget support:

All annual instalments release will be based on a positive assessment of continued fulfilment of the following three (03) eligibility criteria:

- Vietnam's stability oriented Macro-economic policy is maintained and the medium-term prospects do not put at risk the sector objectives.
- Vietnam's reform plans for public finance management are sufficiently credible and relevant and are implemented satisfactorily, in particular:
 - a. A pilot Public Expenditure and Financial Accountability (PEFA) assessment is undertaken before the assessment of the first instalment. In addition,
 - b. Medium-Term Expenditure Framework (MTEF) preparation is carried out in the context of the revised state budget law and its eventual provisions for a national MTEF.

Clear progress in these areas from year to year will be a necessary condition for release of further instalments.

- A clearly defined sector policy is in place and implemented satisfactorily. The *"National strategy for people's health protection, care and improvement and master plan for health sector development, 2011-2020, vision 2030"*, will need to be finalised and approved by the Government. By the end of 2010, the 5-year national health plan 2011-2015 was adopted by the Minister of Health. To ensure the operationalisation of the plan, in line with the national sector strategy, the following actions will constitute concrete milestones for the assessment of the criterion on sector policy,
 - a. The Ministry of Health ensures that an harmonization process of operational planning and budgeting guidelines for provinces is put in place in consultation with a Technical Working Group for Planning and Finance, established under the Health Partnership Group.
 - b. Formulation of provincial operational plans and comprehensive budgets in a number of provinces, using the above-mentioned guidelines, and steps towards consolidation at national level.

- c. The JAHR process will monitor annually sector performance and the implementation progress of the 5-year Plan, by establishing, among others, indicators for monitoring the main sector priorities not covered in the list of 19 indicators included in the 5-year Plan, including baselines and target values.
- d. The health sector improves its capacity for evidence-based policy formulation, by upgrading its Management Information Systems (HMIS).

In 2012, 2013 and 2014, the base instalment will be disbursed on the basis of a positive assessment of the progress on the above-mentioned general criteria. Justification of incremental progress against the above-mentioned milestones shall be part of the attachments to each request for disbursement introduced by the Ministry of Finance.

Specific criteria for disbursement of bonus instalments of budget support:

Additional specific criteria for the disbursement of the bonus instalments have been agreed in dialogue between the Government of Vietnam (GoV) and the Commission and are detailed in appendix 1 to the present Technical and Administrative Provisions.

In 2013 (year N+1), disbursement for the 1st bonus instalment will be made against the positive assessment by the Commission based on evidences submitted by the Ministry of Finance, on behalf of the Beneficiary Government, and the JAHR report (see criteria in appendix 1).

In 2014 (year N+2), disbursement for the 2nd bonus instalment will be made against the positive assessment by the Commission based on evidences submitted by the Ministry of Finance, on behalf of the Beneficiary Government, and the JAHR report (see criteria in appendix 1).

Analysis of the chosen performance indicators in appendix 1 tells us that they are of adequate quality to justify their use for the disbursement of budget support.

The chosen performance targets and indicators specified in appendix 1 will apply for the duration of the programme. However, in duly justified circumstances, the Ministry of Finance, in close consultation with relevant Ministries and/or Agencies may submit a request to the EU Delegation to Vietnam for the targets and indicators to be adapted. The changes agreed to the targets and indicators may be authorised by exchange of letters between the two parties. This procedure cannot be applied retroactively as in order to be valid, such changes should have been agreed before the assessment period.

2.3.3 Modalities for Disbursement

The Ministry of Finance (MoF), on behalf of Beneficiary Government, is responsible for the collection of information and figures, as referred above, necessary for the assessment of the criteria for disbursement (See 2.3.2.), from the Ministry of Health; from Vietnam Social Security; from relevant Provinces; and from relevant Departments of the Ministry of Finance. To ensure that the EU Delegation and EU Headquarters are able to confirm in September the amount to be disbursed the following year, relevant information and figures for the assessment of those criteria will be available from the Ministry of Finance in July every year, attached to a formal request for payment.

The EU Delegation will assess the information provided by the Ministry of Finance and the JAHR report, verify if the criteria for disbursement have been fulfilled and recommend to its Headquarters an appropriate level of disbursement.

If the information has been provided in a timely manner, the EU Delegation could confirm in September by means of a formal letter to the MoF the level of its intended disbursement to allow for the integration of this information in the budgetary decision of the National Assembly (end of November annually).

Additional details of disbursement modalities are provided in appendix 1 and 2 of the present Technical and Administrative Provisions.

3. MONITORING, EVALUATION AND AUDIT

Monitoring, reviewing and evaluating progress along the life of the Programme is based on the improved dialogue established by HPG in line with the lead taken by the Government in improving donors' coordination in the context of the Hanoi Core Statement on Aid Effectiveness.

Progress of the Health Sector and achievements of the five year plan will be integrated in the JAHR process and undertaken jointly by the HPG. Resources for this from the Commission side could be taken from the short term Technical Assistance (TA) resources of the Health Sector Capacity Support project (HSCSP).

A specific evaluation of the sector budget support operation could be undertaken, if deemed necessary, by the Commission.

4. COMMUNICATION AND VISIBILITY

The programme will comply with the guidelines of the "Visibility Manual of the EU applicable to external actions". A signing ceremony followed by a press conference will take place at the signature of the Financing Agreement, workshops and/or dissemination of programme documentation will be organised. During the programme implementation, the EU Delegation to Vietnam will promote consistent and relevant actions of information in collaboration with the Ministry of Health of Vietnam.

APPENDICES

- 1 - Performance criteria and indicators used for disbursement of bonus instalments
- 2 - Disbursement arrangements and timetable
- 3 - Basic health targets during 2011-2015

Appendix 1: Performance criteria and indicators used for disbursement of bonus instalments (budget support)**Criterion 1**

- Health expenditure, sourced from State budget, increases faster than the annual increase of State expenditure in general, and an increase also takes place in poorest provinces.

Link with national policy:

The indicator refers to the implementation of Resolution 18 of the National Assembly, which request the GoV to increase its expenditures for health faster than the annual increase of state expenditure. It also looks at the same indicator at provincial level, in order to verify the pro-poor character (equity) of the budget allocation.

Method of calculation:

The Delegation will base its assessment on both of the following sources:

- Specific report by the MoF on the planned recurrent expenditure in the Health sector. This report will specify the different components of this figure, among which the figures published on the MoF website.
- The figures collected and provided by the MoF on the planned provincial recurrent health expenditure, approved by Provincial People's Councils, for the selected 9 poorest provinces (see table below).

Formula for sub-criterion (a) is as follow: on estimated % increase of planned recurrent health expenditure from State budget (numerator) in comparison with estimated % increase of planned recurrent State expenditure (denominator) between year N-1 and year N.

planned	2011	2012	% increase
Recurrent health expenditure from State budget	A	A'	$\frac{A'-A}{A}$ = figure (1)
Recurrent State expenditure	B	B'	$\frac{B'-B}{B}$ = figure (2)

Baseline figure for sub-criterion (a) is as follow:

planned	2011 (billion VND)
Aggregated recurrent State budget expenditure	505,960
Recurrent health expenditure from State budget	43,200

Formula for sub-criterion (b) is as follow: figure for year N > figure for year N-1 at provincial level

Baseline figure for sub-criterion (b) is as follow:

9 provinces	Planned recurrent health expenditure, approved by Provincial People's Council, from provincial State budget Planned for 2010: (million VND)	Planned recurrent health expenditure, approved by Provincial People's Council, from provincial State budget Planned for 2011: (million VND)
Dien Bien	105,299	324,402

Son La	206,574	572,200
Lai Chau	135,728	305,821
Gia Lai	286,500	588,146
Kon Tum	96,828	264,698
Bac Kan	81,450	217,722
Yen Bai	168,863	382,976
Vinh Long	136,635	210,226
Kien Giang	208,899	462,561

Target:

The sub-criterion (a) is considered to be fully met if figure (1) > figure (2)

The sub-criterion (b) is considered to be fully met if figure for year N > figure for year N-1 for all provinces. Partial achievement will be treated as described in appendix 2.

Timing for availability:

The data for year N-1 will be available

(a) at the latest by July of year N for planned recurrent health expenditure from State budget

(b) at the latest by July of year N for planned recurrent health expenditure from provincial State budget and will be attached to the formal request for instalment release as supporting document/evidence by the MoF. MoF will (i) coordinate internally among its relevant departments; and (ii) liaise with the Provincial People's Council of the above-mentioned provinces to ensure the timely availability of those data.

Criterion 2

- Health insurance coverage increases on annual basis.

Link with national policy:

The indicator is strictly related to implementation of the Health Insurance Law, which sets the objective of annually-increased coverage of health insurance, managed by Vietnam Social Security (VSS), until the full coverage of the entire population.

Method of calculation:

The Delegation will base its assessment on:

- (a) a formal statement from central VSS

on the increase of health insurance coverage during the previous year. The increase shall be measured as follows: number of persons having health insurance card. See baseline below for central VSS:

	2005	2006	2007	2008	2009
Estimated population, in million	81.3	83.0	83.9	84.8	85.8
Estimated number of insured persons = estimated number of cards, in million	21.8	36.9	35.7	39.4	49.2
Percentage of population insured	27%	44%	43%	46%	57.3%

Target:

	2010	2011	2012	2013	2014
Estimated population, in million	86.7	87.7	88.6	89.6	90.6
Estimated number of cards, in million	50.7	56.2	59	62	68
Percentage of population insured	58.5%	64.1%	66.6%	69.2%	75.1%

Timing for availability:

The data for year N-1 will be available at the latest by July of year N, to be included in a single submission of annual request for instalment release and supporting document/evidence by the MoF. MoF will liaise with central VSS to ensure the timely availability of those data.

Criterion 3

- Comprehensive annual sector operational plan and budget are available in a number of pilot provinces of the Health Sector Capacity Support Project.

Link with national policy:

The indicator is related to the objective of strengthening Stewardship and Regulatory Functions of MoH. It monitors the gradual integration of decentralized operational planning as part of overall sector planning.

Method of calculation:

Progress reports of the Health Sector Capacity Support Project (HSCSP) will inform about the number of pilot provinces with comprehensive annual sector operational plan and budget. Quality of the provincial plan will be assessed by an independent short-term expert, recruited under HSCSP, using the criteria and methodology of the Joint Assessment of National Strategies (JANS).

Target:

2012: at least 1 province

2013: at least 2 provinces

Timing for availability:

The report shall be available by July 2012 and 2013, to be included in a single submission of annual request for instalment release and supporting document/evidence by the MoF. MoF will liaise with the MoH/HSCSP to ensure the timely availability of the report.

Criterion 4

- The monitoring framework of the 5-year plan is integrated in the JAHR process. In other words, as from 2011 - the JAHR report will have a chapter reporting on the implementation progress of the 5-year plan, and analysing progress on the 19 indicators included in the plan and on additional indicators to monitor priorities of the plan defined by the JAHR.

Link with national policy:

The indicator is strictly in line with the SoI, namely milestone number 8, which aims harmonise and align donors' support.

Method of calculation:

The JAHR report will have a chapter reporting on the implementation progress of the 5-year plan, on which dialogue will be opened at HPG meeting under the leadership of the MoH.

Target:

The criterion is fulfilled for the JAHR 2012 and 2013.

Timing for availability:

The draft JAHR report of acceptable quality, with a chapter reporting the implementation progress of the 5-year plan, will be available at the latest by July each year, to be included in a single submission of annual request for instalment release and supporting document/evidence by the MoF. MoF will liaise with the MoH to ensure the timely availability of the report.

Link with national policy:

The selected indicators represent a strict link to the implementation of 5-year plan's building blocks as part of the measurement of achievement of relevant objectives of the plan, with particular attention of the Government to addressing the disparities in those indicators between the poorest regions and the rest of the country.

Method of calculation:

These indicators' targets will be jointly assessed mid-2013 and reported in the JAHR report 2013.

Timing for availability:

The JAHR report 2013, with a chapter reporting the implementation progress of the 5-year plan should include information on the national figures and provincial figures require specific reporting, both of which will be available at the latest by July 2013 for the retrospective data of 2012, to be included in a single submission of annual request for instalment release and supporting document/evidence by the MoF. MoF will liaise with the MoH's Department of Planning and Finance (including health statistics division) and the 9 selected provinces to ensure the timely availability of those figures.
